

NOT SO SPOOKY HALLOWEEN SENSORY ACTIVITIES

1

Spray shaving cream or whipped cream on a cooking sheet or paper and have your child draw ghosts. They can draw with their fingers or a paint brush. You can add paint, googly eyes, or paper cut outs to make a silly ghost face.

Grab a pumpkin and decorate! You can use paint, markers, stickers, glitter, and even Potato Head pieces. Let your child explore their creativity and senses with this fun activity.

2

3

Fill a bucket (or cauldron) with water and toss in some toy spiders, eye balls, and other spooky toys. Allow your child to use a ladle to stir up the brew and retrieve specific "eye"tems.

Open up the pumpkin and allow your child to explore the insides. They can use their hands or a spoon to dig around and remove seeds.

4

5

Use household items to make your very own playdough-monster! You can use straws, pipe cleaners, beads, sprinkles, dry beans, rocks, etc. to make your creation come to life.
