Scripting

A script is a visual that can help support communication in a number of different settings. It provides the individual with a phrase to initiate a conversation and enables them to communicate their wants and needs in that situation.

"Trick or Treat"

Things to say while trick or treating:

"Thank you!"	"Cool house!"
"I like your costume."	"No, thank you."
"Happy Halloween!"	"Have a good night!"

Going Trick-or-Treating

October 31st is Halloween.

On Halloween, a lot of kids dress up in costumes.

Many like to go trick or treating. Trick or Treating is when kids go door to door to get candy.

First, walk up to the door. Then, I will knock 3 times.

Say "Trick or Treat!" when someone opens the door and hold my bag open.
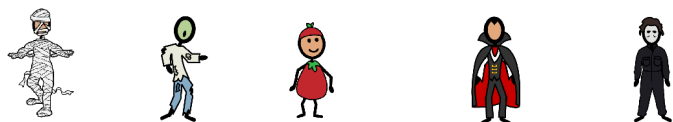

The person at the door will put candy or a treat in my bag. When they put candy in my bag or bucket, I will say, "Thank you!"

Then I will walk to the next house.

Steps to Trick-or-Treating

1. Walk up to the door.

2. Knock on the door 3 times.

3. If no one answers, go to the next house.

4. When someone answers, say, "Trick or Treat!"

5. I hold out my bag or bucket to get candy. They might ask me to choose one or 2 pieces. I will pick out the number they tell me to get.

6. Say, "Thank you!" and go to the next house!
